**Congratulations to our 2015 William H. Feather Safety  
Winners**

Fairfax, Va., The William H. Feather Awards are presented to NUCA member companies who have shown significant commitment and effort to safety within their companies. Judging is based on outstanding safety records, safety statements, and safety program information. The awards are given in categories according to man-hours, as well to an overall winner, and will be presented at NUCA's Auction and Awards Gala at the 2016 Convention in Puerto Rico.

William H. Feather was a founding member of NUCA's first Safety Committee and was widely known as the backbone of NUCA's Safety Program. In 1978 NUCA established the William H. Feather Awards, to both honor and memorialize the contributions of a respected friend and colleague and to recognize that same spirit of safety when demonstrated by members.
